

GLOBAL STRENGTH AND LOCAL FOCUS

Keller is a global leader in delivering innovative geotechnical solutions across a wide variety of environments and in all UK regions and sectors. These include, but are not limited, to:

- Highways
- Aviation
- Industrial
- Rail
- Housebuilding
- Utilities
- Marine
- Commercial
- Energy

KEY CONTACTS

BUSINESS DEVELOPMENT

Mark Williams - Mob: 07557 033271
Email: mark.williams@keller.com

Derek Taylor - Mob: 07769 654163
Email: derek.taylor@keller.com

PILING, PILED WALLS

Richard Smith – Mob: 07918 632800
Email: richard.smith1@keller.com

DISPLACEMENT PILING

Simon Thompson - Mob 07748 968391
Email: simon.thompson@keller.com

RESTRICTED ACCESS PILING, GROUTING, ANCHORS, SOIL NAILING

Anthony Lucas – Mob: 07908 502122
Email: anthony.lucas@keller.com

GROUND IMPROVEMENT

Rob Herring – Mob: 07767 446830
Email: rob.herring@keller.com

PHI GROUP

Rob Torrington - Mob: 07753 573762
Email: robert.torrington@phigroup.co.uk

GEO-INSTRUMENTS

Piotr Konieczny - Mob: 07872 456295
Email: piotr.konieczny@geo-instruments.co.uk

HSEQ

Simon Jones – Mob: 07909 990639
Email: simon.jones1@keller.com

KELLER UK CAPABILITIES

www.keller.co.uk

- Web: keller.co.uk
- Phone: 02476 511266

PILING

- CFA piling
- Driven precast piling
- Rotary bored piling
- Vibro concrete columns
- Rigid inclusions (Controlled Modulus Columns)
- Restricted access piling
- Specialist drilled solutions
- Driven steel piling

PILED WALLS

- Contiguous bored piled walls
- Secant bored piled walls
- King post retaining walls

GROUND IMPROVEMENT

- Vibro stone columns
- Dynamic deep compaction
- Environmental stone columns
- Vibro compaction

GROUTING

- Compaction grouting
- Permeation grouting
- Jet grouting (Soilcrete)

- Compensation grouting
- Bulk fill grouting

WALL AND EMBANKMENT STABILISATION

- Ground anchors
- Soil nailing

GROUNDWATER CONTROL

- Diaphragm/Slurry cut-off walls
- Permeable reactive barriers
- Ground freezing

SOIL MIXING

- Deep dry soil mixing
- Wet soil mixing

- Web: phigroup.co.uk
- Phone: 01242 707600

RETAINING STRUCTURES

- Permacrib timber crib
- Andacrib concrete crib
- Gabion baskets
- Precast L-shaped walls
- Textomur reinforced soil slopes
- Modular block reinforced soil structures
- Soil nailing facing systems
- Design, supply & installation

- Web: geo-instruments.co.uk
- Phone: 0207 709 2030

MONITORING SOLUTIONS

- Structural and geotechnical monitoring
- Environmental monitoring - Noise, vibration and dust
- Manual surveying and Automated Total Stations
- Wireless solutions
- Fibre optic instrumentation
- Liquid levelling cells
- ShapeArray Instrumentation
- Load cells
- Sub-surface monitoring

SOFTWARE

- Data visualisation software
- QuickView - online and mobile data visualisation
- Survey network adjustment software
- Software systems for Compensation, Jet and Permeation grouting
- Bespoke applications

- Should you require advice/assistance on a project, please do not hesitate to contact us
